

There is a hospital in my town. My mum works at hospital. There is a big room. We have katie at home. Her name is Tibe. There is a petshop, where we buy food for our katie. There is a playground behind the petshop. There are two super markets. I like shopping, but not often. There is a park. In the park there is a river, trees, petanque center. There is also a cinema. Cinema is opposite the supermarkets. I like going to the cinema. There is a museum behind the cinema.
